BULLETIN #2

Sub: High Pressure (~95 barg) Gas Pipeline (6", ~19 km) for Bhaskar-1 field in Gujarat.

Ref: Tender No.: SunPetro/Bhaskar/Pipeline/2025-26/240

Sun Petrochemicals Private Limited (SunPetro), hereby authorized following amendment / clarification in the above referred Tender:

Sr. No.	Bidder Query	SunPetro Response
1	Tender Scope defines the requirement of Cathodic protection, Please confirm the requirement of M/s Sunpetro whether to consider Temporary cathodic protection or Permanent Cathodic Protection or both.	Only Permanent Cathodic protection is required
2	Kindly confirm if there is a requirement of Hot tapping for both locations. Also please confirm whether it shall be in the scope of the contractor. In case of Hot tapping requirement please confirm the existing pipeline diameter and thickness.	Hot tapping not required at both ends.
3	We understand that for both the areas Civil works for the Launcher and receiver foundations and piping supports shall be in the scope of the contractor. Kindly confirm if there is a requirement of other civil works like Boundary walls, fencing, Entry Gate, pavement, Drains, Storm Water Sewer, roads, Borewells at both launcher and receiver areas	Only Pig launcher and receiver foundations, general grading and paving for operational area of pig launcher and receiver are in Bidder's Scope of Work
4	Kindly confirm the requirement of buildings, security cabins at consumer TP location .	Under SunPetro scope
5	We understand that for both the areas the scope of electrical works – earthing pits and earthing work, lighting poles, Power connections, DB's, and any other electrical works are not in the contractors scope. Please confirm and elaborate SunPetro's requirement so we can consider accordingly.	Under SunPetro scope
6	We understand that for both the areas the scope of Instrumentation works is limited to supply and erection of Pressure Safety valves, Pressure Gauges and Pig Signalers only are in the scope of the contractor and other works (if any) shall be under the scope of SunPetro.	Bidder's understanding is correct
7	We understand that as per the tender document and the SxOR, all the valves under the above referred tender shall be manually operated and there is no requirement of Actuated valves. Please confirm	Only Manual operated valves

8	We understand that the following are not part of scope of this project. a. Telecom works – OFC cable and HDPE ducts b. Requirement of Supply or integration with RTU / Scada	Under SunPetro scope
9	We request to kindly confirm your operation requirement of Pig Handling devices, jib Crane under this project	Pig handling devices (Jib crane etc) not required.
10	We request to confirm the requirement of vent-header connection with the existing flare or to be released into the atmosphere. Kindly confirm the existing header details	Existing Flare at the time being may be considered as released into the atmosphere but shall be reviewed further during detailed engineering.
11	We request you to confirm the requirement and methodology for the Spares.	Commissioning spares, if required, are part of scope of work. Bidder shall propose two years operational/ maintenance spares along with price, which shall be reviewed separately

All other terms and conditions of the Tender remain unchanged.

Regards,

Sun Petrochemicals Pvt. Ltd
